Orrin Hatch: We must fix civics education to protect American democracy The events of one of the most tumultuous years in U.S. history have pushed our representative government to the breaking point.

In 10 Steps to Repair American Democracy Steven Hill addresses the problems plaguing the US political system, outlining his ten-step program to improve American democracy. He proposes specific reforms to give voters more choices at the ballot box, boost voter turnout, reduce Senate 'filibustering' and end excessive corporate dominance. Daybreak is a thorough investigation of how Bush/Cheney altered the way American government works and deteriorated the Constitution and Bill of Rights. It includes clear plans for how we may reclaim democracy, declare our rights, and truly set out for a new America. Shocking and inspirational, Daybreak provides a clear breakdown of all that we have lost, and all that we have to gain.

Why Social Security is not only sustainable but should be substantially expanded Social Security is bankrupting us. It's outdated. It's a Ponzi scheme. It's stealing from young people. These are some of the biggest myths and lies about one of the most successful programs in our nation's history. Three-quarters of Americans depend heavily on Social Security in their elderly years and nearly half would be living in poverty without it. But as important and popular as it is, Social Security has become a political football. Policy expert Steven Hill argues that Social Security should not only be defended, it should be substantially expanded. Here he proposes how we can double the monthly benefit and how to pay for it by closing many of the tax loopholes and deductions that disproportionately favor the wealthy few.

A quiet revolution has been occurring in post-World War II Europe. A world power has emerged across the Atlantic that is recrafting the rules for how a modern society should provide economic security, environmental sustainability, and global stability. In Europe's Promise, Steven Hill explains Europe's bold new vision. For a decade Hill traveled widely to understand this uniquely European way of life. He shatters myths and shows how Europe's leadership manifests in five major areas: economic strength, with Europe now the world's wealthiest trading bloc,

nearly as large as the U.S. and China combined; the best health care and other workfare supports for families and individuals; widespread use of renewable energy technologies and conservation; the world's most advanced democracies; and regional networks of trade, foreign aid, and investment that link one-third of the world to the European Union. Europe's Promise masterfully conveys how Europe has taken the lead in this make-or-break century challenged by a worldwide economic crisis and global warming.

In recent years American politics has seemingly become much more partisan, more zero-sum, more vicious, and less able to confront the real problems our nation faces. What has happened? In *The Second Civil War*, respected political commentator Ronald Brownstein diagnoses the electoral, demographic, and institutional forces that have wreaked such change over the American political landscape, pulling politics into the margins and leaving precious little common ground for compromise. *The Second Civil War* is not a book for Democrats or Republicans but for all Americans who are disturbed by our current political dysfunction and hungry for ways to understand it—and move beyond it.

Contributors representing two of the nation's most widely respected think tanks provide an agency-by-agency blueprint for building a new administration and rebuilding America.

A thought-provoking exposé that shows why the tech leaders' vision and their Ayn Rand brand of libertarianism is a dead end for U.S. workers, the middle class, and the national economy
