Academic Listening

Encounters helps
prepare high-

intermediate ESL

students for listening

to lectures and taking

notes in an English

speaking academic

environment. The

content focus of this

book is human

behavior, which

includes such high

interest topics as

File Type PDF

Academic

stress and health, intelligence, and friendship. Each of ten chapters explores one of these topics using a variety of listening materials, including a set of directions to follow, informal interviews, and authentic classroom lectures. These materials offer students the

File Type PDF

Academic

opportunity to practice crucial listening skills, such as summarizing what they have heard or listening for implied information; they also serve as stimuli for discussion and note-taking activities. Pre-listening tasks expose students to vocabulary they will encounter in the interviews and

File Type PDF

Academic

lectures and help them acquire important skills such as building background knowledge on the topic and guessing meaning from context.

And Discussion
