There is a long and rich history of opinion centred on female prayer leadership in Islam that has occupied the minds of theologians and jurists alike. It includes outright prohibition, dislike, permissibility under certain conditions and, although rarely, unrestricted sanction, or even endorsement. This book discusses debates drawn from scholars of the formative period of Islam who engaged with the issue of female prayer leadership. Simonetta Calderini critically analyses their arguments, puts them into their historical context, and, for the first time, tracks down how they have informed current views on female imama (prayer leadership). In presenting the variety of opinions discussed in the past by Sunni and Shi'i scholars, and some of the Sufis among them, the book uncovers how they are, at present, being used selectively, depending on modern agendas and biases. It also reviews the roles and types of authority of current women imams in diverse contexts spanning from Asia, Africa and Europe to America. The research offers readers the opportunity to gain nuanced answers to the question of female imama today that may lead to informed discussions and to change, if not necessarily in practices then at the very least in attitudes. This ground-breaking book interrogates the cases of women who are reported to have led prayer in the past. It then analyses the voices of current women imams, many of whom engage with those women of the past to validate their

own roles in the present and so pave the way for the future.

The book uses an ethnographic approach to explore why the Tablighi Jamaat movement remains so successful in contemporary times. It shows that this success results from the positive image that it cultivates, and the systematic preaching activities of Tablighi Jamaat followers, and that the organisation's apolitical image, the public profile of the ijtema, the humbleness of Tablighi followers, and the attraction of belonging to the global Tablighi community all help to create a positive image of the Tablighi Jamaat among ordinary Muslims. The book also argues that the Tablighi Jamaat remains successful because of its ability to hold its followers within a Tablighi-guided life, which is perceived as protection against the Western lifestyle. Many elements of contemporary Western lifestyle are considered non-Islamic, and so by clearly defining what is Islamic and non-Islamic in modern society, the Tablighi Jamaat provides a way in which Muslims can live in the contemporary world, but remain good Muslims.

'Working and Living in Saudi Arabia' provides valuable cultural and practical business information necessary for all professionals working and travelling to Saudi Arabia, including those who may be working and living in other Middle East countries.

In the first two decades of the twenty-first century, the events of 9/11, 7/7, the War on Terror and the Caliphate and atrocities of the so-called Islamic State have dominated Western consciousness and wreaked havoc in parts of the Muslim-majority world. In their wake, a spate of books has been written explaining the phenomenon of Islamist radicalisation and Jihadism.

Nevertheless, for normal citizens, as well as scholars of religion and legal professionals, the crucial question remains unanswered: how is mainstream Islam different from both Islamism and the Islamist Extremism that is used to justify terrorist violence? In this highly original book, which draws upon the author's experience as an expert witness in Islamic theology in 27 counter-terrorism trials, the author uses the idea of the Worldview, as well as traditional Islamic theology, to answer this question. The book explains not only what Mainstream Islam, Ideological Islamism and Islamist Extremism are in their broad philosophical characteristics and theological particulars, but also explains comprehensively how and why they are both superficially related and yet essentially and fundamentally different. In so doing, the book also illuminates the cast of characters and the development of their ideas that constitute Mainstream Islam, Ideological Islamism and the Non-Violent and Violent Islamist Extremists who constitute the Genealogy of Terror.

The Business of Sustainability is a core resource for policy makers, members of the development community, entrepreneurs, and corporate executives, as well as business and economics students and their professors. It contains rich analysis of how sustainability is being factored into industries across the globe, with enlightening case studies of businesses serving as agents of change. Contributing authors provide a groundbreaking body of research-based knowledge. They explain that the concept of sustainability is being re-framed to be positive about business instead of being tied to the old notion of a trade-off between business and society (that is, if business wins, society and the environment must lose), and they explore how economic development can contribute to building our common future.

Despite the central importance that water has held for civilizations both ancient and modern, its social significance has made surprisingly little impact on our contemporary understanding of human history and development. Dominant interpretations of the relationship between society and nature have remained water blind. In *Water and Society* historian and leading water expert Terje Tvedt argues for a change that acknowledges the significant role played by water in societal development. Reflecting his expertise as a geographer, historian and a political scientist, and drawing on his wide experience of water issues around the world, Terje Tvedt's *Water and Society* provides a long overdue reappraisal of the relationship between water and society, one that gives water its rightful place as central to any true understanding of human history and development."

This beautifully designed, full-color textbook offers a comprehensive introduction to the world's religions, including history, beliefs, worship practices, and contemporary expressions. Charles Farhadian, a seasoned teacher and recognized expert on world religions, provides an empathetic account that both affirms Christian uniqueness and encourages openness to various religious traditions. His nuanced, ecumenical perspective enables readers to appreciate both Christianity and the world's religions in new ways. The book highlights similarities, dissimilarities, and challenging issues for Christians and includes significant selections from sacred texts to enhance learning. Pedagogical features include sidebars, charts, key terms, an extensive glossary, over two hundred illustrations, and about a dozen maps. This book is supplemented with helpful web materials for both students and professors

One of the greatest challenges facing the Church and society today is how to build understanding and co-operation between people of different faiths for the common good. The consequences of misunderstanding and alienation are all too evident - getting this right is both vital and urgent. This innovative book tells the stories of a remarkably varied series of local church and community projects that lay and ordained members of Christian churches have initiated with people of other faiths. The entire process from initial idea and starting to understand different cultural and religious perspectives is described, as are the practical lessons learned and pitfalls encountered along the way. The projects vary from pupils spending a day in each others' faith schools, multi-faith hospital, hospice and prison chaplaincy, much sharing of food, hospitality in each others' places of worship and more. This is practical theology and faith dialogue in action. The book concludes with a simple guide to the conventions and terminology of other faiths.

In multifaith space, different religious world views come together in a way that mirrors the multicultural life experience of people living in towns and cities across the world. These spaces can highlight complex and sensitive issues to do with political and social tensions around the emergence of increasingly densely urbanised populations. At the same time, they also hold out the possibility of encouraging or promoting neighbourliness, dialogue, hospitality and shared activity for the betterment of the community. This book explores the history, development,

design and practicalities of multifaith spaces. From early shared religious buildings that had to cater for the spiritual rituals of two or more faiths, to the shared multifaith spaces of modern secular locations such as universities, airports and hospitals, author Terry Biddington looks at the architectural, theological, social, legal and practical complexities that arise from the development and use of such spaces. The book also draws together research to enable further development of multifaith spaces.
