Accountancy encompasses much more than is normally considered, especially from a social responsibility point of view. This book brings fresh ideas and an innovative approach to accountancy theory and practice as well as critical views about professional thinking in accountancy. The reader will find advanced approaches regarding usiness objectives with social responsibility principles. A new role of accountancy is founded for a sustainable society. The responsibility of individuals is emphasized through behavioural analysis. The book has an interdisciplinary character and will be interesting for students, doctoral students, academics and practitioners as well. The real thread of the book is the risk and responses to the feelings of risk in organizations and also of individuals. On this basis a new role and a new structure of accountancy is offered. Zivko Bergant is assistant professor at the College of Accountancy and Finance in Ljubljana, Slovenia.

Nigeria is the largest economy in Africa with a GDP of \$ 487bn in 2015, according to the World Bank. The country asserted the mantle of the continent's largest economy in 2013, following a rebasing exercise. However, its large population means that Nigeria remains a comparatively poor country in per capita terms, with a lower GDP per capita than several of its sub-Saharan neighbors. Following a real GDP contract of 1.5% in 2016, the IMF forecasts that growth will reach 0.8% in 2017 and 1.9% in 2018. While growth began to pick up in the first half of 2017, Nigeria still has much work to do. However, there is the sentiment that the economy has turned a corner and has begun to see a silver lining. Devaluation of the naira, rising inflation, the drop in oil revenues, the slowdown in oil production, and the leader softening of growth,

Over time, globalization has evolved into a shared journey of humanity, involving entrepreneurship, innovation, business and policy advances around the world. This book explores the link between globalization and development, and reveals the dynamics, strengths and weaknesses, trends in and implications of globalization in Asia and Africa. Presenting papers by respected experts in the field, it shares essential insights into the status quo of globalization processes and structures, identifies the opportunities and threats that globalization faces, and sheds light on the path to global peace. Topics range from using fair-trade practices to compensate for the impacts of globalization; to lessons learned for tomorrow from Tunisia, Morocco and Jordan; as well as emergent topics such as global entrepreneurship capacity and developing the Chinese economy overseas.

Market mistakes to avoid: " Written for investors at all levels...[a] practical, no-nonsense guide. " —Publishers Weekly One of Money Week's Five Best Books of the Year Investors are tempted daily by misleading or incomplete information. They may make a lucky bet, realize a sizable profit, and find themselves full of confidence. Their next high-stakes gamble might backfire, not only hitting them in the balance sheet but also taking a mental and emotional toll. Even veteran investors can be caught off guard: a news item may suddenly cause havoc for an industry they've invested in; crowd mentality among fellow investors may skew the market; a CEO may turn out to be unprepared to effectively guide a company. How can one stay focused in such a volatile world? If you can't trust your past successes to plan and predict, how can you avoid risky situations in the future? Patience and methodical planning will pay far greater dividends than flashy investments. In Big Money Thinks Small, veteran fund manager Joel Tillinghast shows investors how to avoid making these mistakes. He offers a set of simple but crucial steps to successful investing, including: · Know yourself, how you arrive at decisions, and how you might be susceptible to self-deception · Make decisions based on your own expertise, and do not invest in what you don't understand · Select only trustworthy and capable colleagues and collaborators · Learn how to identify and avoid investments with inherent flaws · Always search for bargains, and never forget that the first responsibility of an investor is to identify mispriced stocks

Health promotion and protection for all citizens and health care for patients represent some of the most important policy challenges worldwide. Virtually every single area of life-professional productivity, cultural creativity, political and social participation, and citizens' quality of life-is influenced by the state of health at the individual and at the population level. But are current forms of health governance and health care services sufficient to overcome inequalities, ensure health security, harness technological developments, and cover future needs? The Governance Report 2019 focuses on health governance and the models and strategies used to make health policy an integral part of modern social policy and meet growing challenges. Health governance involves state, market, non-governmental, professional, and individual actors often working across sectors and depends on interactions at multiple levels-from local clinics to global forums. The Report traces the development of health governance institutions and actors, examines factors influencing the health-related decisions of individuals and policy-makers alike, highlights innovations both at international level and at the intersection between individuals and professionals, and offers recommendations to ensure that health care and health policy are governed to meet future challenges.

Publishing the Nonprofit Annual Report offers your nonprofit organization hands-on guidance to help you create an annual report that goes beyond fulfilling your financial reporting responsibilities and instead becomes a valuable communications, marketing, and image-building tool. Written by Caroline Taylor--a consultant who has more than twenty years of experience producing award-winning annual reports--this essential guide takes you through the report-writing cycle from start to finish. Step by step, she shows you how to create a plan, fit the report process into the overall schedule, assign tasks, develop the executive message, work with designers to integrate visual elements, and get the report printed on time and within budget.

This report presents international investment trends and prospects at global, regional and national levels, as well as the evolution of international production and global value chains. It analyses the latest developments in new policy measures for investment promotion, facilitation and regulation around the world, as well as updates on investment treaties, their reform and investment dispute settlement cases. It provides an overview of industrial policy models for countries at different development levels and the role of investment policies within each model. It analyses the investment policy implications of the new industrial revolution for high-, middle- and low-income countries and offers a toolkit for investment policymakers on how to use investment policies for new industrial development strategies.
