Discovering Nutrition, Third Edition is a student-friendly introduction to nutrition on a non-majors level. Coverage of material such as digestion, metabolism, chemistry, and life cycle nutrition is clearly written, accessible, and engaging to undergraduate students.

Written with non-majors in mind, Discovering Nutrition, Sixth Edition introduces students to the fundamentals of nutrition with an engaging and personalized approach. The text focuses on teaching behavior change and personal decision making with an emphasis on how our nutritional behaviors influence lifelong personal health and wellness, while also presenting up-to-date scientific concepts in a number of innovative ways. Students will learn practical consumer-based nutrition information using the features highlighted throughout the text, including For Your Information boxes presenting controversial topics, Quick Bites offering fun facts, and the NEW feature Why Is This Important? opens each section and identifies the importance of each subject to the field.

The Student Study Guide provides a study aid for students and contains multiple choice questions, review questions, image labeling activities, fill-in-the-blanks, critical-thinking questions, key terms, and a note-taking guide.

Nutrition is unique in its behavioral approach--challenging students to actively participate, not just memorize the material. Offering a balanced coverage of behavioral change and the science of nutrition.

Updated to the latest data and expert information, the Third Edition of Nutrition for the Older Adult introduces students to the unique nutritional needs of this growing population. Designed for the undergraduate, the text begins by covering the basics, including the demographics of aging, physiology of aging, and vitamin and mineral requirements for older adults. It then delves into clinical considerations, including the nutritional implications of diseases and conditions common among older adult. Additional coverage includes: nutritional assessment, pharmacology, nutritional support, and much more. With new pedagogical features along with revamped end-of-chapter activities and questions, Nutrition for the Older Adult is an essential resource for students in the fields of nutrition, nursing, public health and gerontology.

Rev. ed. of: Discovering nutrition / Paul Insel, R. Elaine Turner, Don Ross. 3rd ed. c2010.

Shellito's Discovering GIS and ArcGIS Pro provides students with hands-on work with GIS software, while explaining the "how" and "why" behind each application. Software changes quickly--the theory has a longer shelf life. The goal of Discovering GIS and ArcGIS Pro is to teach students how to combine GIS concepts with ArcGIS Pro software skills, preparing students for successful careers in the real world. Each chapter focuses on using a variety of ArcGIS tools in a real-world context. At the start of each chapter, a scenario puts the student in a particular role with a number of tasks to accomplish.
