'CLIL Activities' is organised into five chapters: activating, guiding understanding, focus on language, focus on speaking, and focus on writing. A further chapter provides practical ideas for assessment, review and feedback.

To meet the needs of the fast growing numbers of Latino/a English learners, this volume presents an approach to secondary education teacher preparation based on the work of the National Latino/a Education Research and Policy Project (NLERAP). Renowned scholar and educator Angela Valenzuela, together with an impressive roster of contributors, provides a critical framework for educating culturally responsive teachers. They examine the knowledge, skills, and predisposition required for higher education institutions to create curricula for educating Latino/a children, children of color, and language minority youth. Growing Critically Conscious Teachers illuminates why growing our own teachers makes sense as an approach for not only addressing the achievement gap, but for also enhancing the well-being of our communities as a whole. Book Features: A community-based, university- and district-connected partnership model that fosters students' critical consciousness. A framework for participatory action research (PAR) within teacher preparation that promotes community and societal transformation. A curriculum premised on sociocultural and sociopolitical awareness. The wisdom, experiences, and lessons learned from educators who have been change agents in their own schools, communities, and college classrooms across the country. "An enormous contribution to the field. It will also be a cherished resource and guide for Latino/a and non-Latino/a teachers alike, and for the university faculty and school- and community-based facilitators who help prepare them." -From the Foreword by Sonia Nieto, Professor Emerita, Language, Literacy, and Culture, College of Education, University of Massachusetts, Amherst "Provides the elemental sparks for essential conversations about culturally responsive teaching and the well-being of youth in our communities. Through a variety of critical perspectives this volume raises significant questions that must be at the forefront of Latino/a education. This excellent volume is a must read for teachers truly committed to educational practices of social justice in schools today." -Antonia Darder, Leavey Endowed Chair of Ethics and Moral Leadership, Loyola Marymount University

Embracing all the different needs that teachers face--from special education, to ELL, to a wide spectrum of student ability and readiness--this innovative resource combines the latest research in brain-based teaching and student engagement with useful interventions and differentiated strategies.Designed to be of practical and immediate use, the text includes classroom vignettes, ties to the Common Core, illustrations, diagrams, highlight boxes, and many more user-friendly features.

Using stories to teach ICT is a new, excellent series of four books that will make the teaching of ICT a more exciting and creative cross-curricular experience. The aim of the series is for ICT to be presented in a format that shows how information technology is used in our everyday lives and demonstrates ways how ICT skills can be taught and extended while linking to a wide variety of other subject areas of the curriculum. Ages 6-7 contains: 6 fun and original stories, detailed lesson plans, up to 4 worksheets with each lesson and activities to develop a range of ICT skills.

The only all-encompassing guide to everything you need to know to teach and train in post compulsory education!
