The JBCC® PBA is suitable for all building contracts and may be used with a Bill of Quantities, or a Schedule of Rates and drawings. The PBA is synchronized with the JBCC® N/S Subcontract agreement to appoint nominated and selected subcontractors binding them to same conditions as the principal contractor The Agreement is dived into seven sections comprising 30 clauses. In addition to being a legal document the content has been structured as a checklist to administer the execution of the works and to minimise potential disagreement - to effectively use expensive man-hours of all the role players in a building project The Agreement is signed between the employer and the contractor - in conjunction with the Contract Data in which all contract variables are recorded, initially by the employer to solicit offers from contractors, and completed by the contractor and submitted as the form of tender -- JBCC documents quick guide.

The JBCC® N/S Subcontract Agreement is modeled on the JBCC® Principal Building Agreement with all common clauses retaining the same numbering. 'Unique' clauses deal with the obligations and rights of nominated and/or selected subcontractors. To ensure a 'fair deal' each N/S subcontractor must be appointed by the contractor using an unaltered printed or electronic version JBCC® N/S Subcontract Agreement and the completed JBCC® N/S Subcontract Contract Data-- JBCC documents quick guide.

Since 1991 the JBCC Principal Building Agreement has been used almost exclusively in the building industry for projects in the private sector. Recently the State took the policy decision that it too would use these agreements subject to appropriate modification, and these modifications were incorporated in the March 2005 edition of the JBCC Principal Building Agreement. This edition of The Building Contract deals not only with the provisions of the Agreement as they are applied in State projects, but also how the Agreement, and its associated documents, is employed in conventional projects in the private sector. Innovations such as adjudication, the advance payment guarantee, and the Minor Works Agreement, are also discussed. The user is armed with knowledge of the nature of the contractual relationship and an understanding of the way in which the agreements are intended to regulate it. -- page 4 of cover.

The JBCC® PBA is suitable for all building contracts and may be used with a Bill of Quantities, or a Schedule of Rates and drawings. The PBA is synchronized with the JBCC® N/S Subcontract agreement to appoint nominated and selected subcontractors binding them to same conditions as the principal contractor The Agreement is dived into seven sections comprising 30 clauses. In addition to being a legal document the content has been structured as a checklist to administer the execution of the works and to minimise potential disagreement - to effectively use expensive man-hours of all the role players in a building project The Agreement is signed between the employer and the contractor - in conjunction with the Contract Data in which all contract variables are recorded, initially by the employer to solicit offers from contractors, and completed by the contractor and submitted as the form of tender -- JBCC documents quick guide.

Abstrakte Bankgarantien sind im internationalen Wirtschaftsverkehr ein unverzichtbares Zahlungssicherungsmittel für komplexe Bauvorhaben und andere Großprojekte. Sie versprechen im Bedarfsfall sofortige Liquidität und lassen sich auf erstes Anfordern abrufen, ohne dass Einwände aus dem Grund-, oder Deckungsgeschäft die Auszahlung verhindern können. Diese unmittelbare Verwertungsmöglichkeit birgt jedoch zwangsweise ein erhöhtes Risiko einer ungerechtfertigten oder missbräuchlichen Abrufung. Das vorliegende Werk untersucht rechtsvergleichend den Missbrauch von Bankgarantien (sog. demand guarantee/independent guarantee/standby letter of credit) im südafrikanischen, englischen sowie deutschen Recht. Unter Auswertung aktueller Gerichtsentscheidungen sowie des Schrifttums werden die praxisrelevanten Missbrauchsfallgruppen analysiert und Wege zur Risikominimierung bzw. -vermeidung aufgezeigt. Das Werk ist gleichermaßen für die Praxis und Wissenschaft geeignet und leistet einen wichtigen Beitrag zur Auflösung des Spannungsfeldes von Rechtssicherheit und materieller Gerechtigkeit im internationalen Wirtschaftsverkehr.

"The construction contracting arena is especially fraught with risks of all descriptions and a thorough understanding of the contractual rights and obligations of the various parties to the different contracts is essential to anyone involved in this field. Such understanding can be very rewarding and enjoyable, but participants must learn and observe the rules, or they will neither enjoy the activity nor be successful at it. The same applies to construction activities. It may be a chore but learning the rules under which the industry operates is an essential prerequisite to success.The initials JBCC stand for the Joint Building Contracts Committee. This is an organisation established in 1984 by various construction related bodies. It is now fully representative of all the role-players in the Built Environment and includes the professions, contractors'/subcontractors' associations, the Black Business Council for the Built Environment and the South African Property Owners Association. In the building sector of the construction industry in South Africa the JBCC Agreements are by far the most used and enjoy wide acceptance. They are also widely use in other African countries such as Botswana and Lesotho, but also others.One of JBCC's main functions is to publish, and update as necessary, construction agreements and related back-up documents. Its first editions were published in 1991, and since then there have been various editions, published at varying intervals. The latest 2018/2020 editions contain important changes from previous editions and this book not only highlight these changes but focusses on the interpretation and understanding of the contractual conditions that users, especially contractors and subcontractors, have to deal with on their construction projects." --Publisher.

This form is intended for small works at values at £250,000 or less (at 2011 prices) and in duration no longer than 6 months, described by drawings and/or a Specification/Schedule of Works but not using a bill of quantities. It should not be used for more complex works or when the Contractor is to design the works.
