The activities in Geometry and Measurement are based on an Olympic theme, so students discover interesting facts about Olympic athletes from the first Olympic runners to Michael Johnson while they learn how to solve maths problems. Students will sharpen numerous skills, including how to: identify points, lines and planes, identify and name angles, identify properties and parts of a circle, determine the circumference of circles, identify similar and congruent figures, identify congruent triangles and other polygons, recognise and define space figures, identify and use units of measurement and find perimeter, area and volume.

25 reproducible tests covering: science concepts & processes; life science; human body & health; physical science; earth space & science; keeping track of skills. Includes answer keys.

Exercises allow students to study the past of the global community and sharpen numerous skills.

Connect students in grades 6–8 with science using Life Science Quest for Middle Grades. This 96-page book helps students practice scientific techniques while studying cells, plants, animals, DNA, heredity, ecosystems, and biomes. The activities use common classroom materials and are perfect for individual, team, and whole-group projects. The book includes a glossary, standards lists, unit overviews, and enrichment suggestions. It is great as core curriculum or a supplement and supports National Science Education Standards.

This book offers teachers and students a complete resource for Science at the Middle Grade Level. Part of the BASIC/Not Boring series, the activities in this book build a solid foundation of essential skills by guiding students through creative activities. Skills practiced in the book are correlated to NSTA Standards.

STEM Labs for Middle Grades offers activities that challenge students to apply scientific inquiry, content knowledge, and technological design to solve real-world problems. An excellent addition to your curriculum, this supplement will help cultivate students' interest in science, technology, engineering, and math. --Mark Twain Media Publishing Company specializes in providing engaging supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, this product line covers a range of subjects including math, science, language arts, social studies, history, government, fine arts, and character.

Exercises to reinforce spelling skills.

This set of standards-based reproducible activity pages is basic, not boring. In this book, students tour the American government and economy with a sassy American eagle named Egbert. They'll review important facts about the structure of the government, the workings of the economy, and the rights and responsibility of citizens. An assessment, glossary, and helpful lists are included.

This book focuses on assigned reading in middle grade science courses and the 14 actions proficient readers take before, during, and after reading to comprehend assigned course texts including textbook chapters, book chapters, passages, and articles.--Vanessa Dodo Seriki, associate professor of science education, and coordinator of graduate programs in mathematics and science education, Morgan State University
