During the 1960s, the automobile finally secured its position as an indispensable component of daily life in Britain. Car ownership more than doubled from approximately one car for every 10 people in 1960 to one car for every 4.8 people by 1970. Consumers no longer asked "Do we need a car?" but "What car shall we have?" This well-illustrated history analyzes how both domestic car manufacturers and importers advertised their products in this growing market, identifying trends and themes. Over 180 advertisement illustrations are included.

With Ivankov's help, Luffy now struggles to make his way back out of Impel Down in order to prevent the execution of his brother Ace. All the prisoners will have to work together if they ever hope to get past the dangerous Warden Magellan. But will an earth-shattering proclamation by the World Government turn everything upside down? -- VIZ Media
