Berries offers learners in elementary classes the opportunity to discover the joy in learning. It provides, through fun and motivating activities, all the basic skills for language learning. To that end, learners will be effectively engaged in a well-structured, comprehensive program as they master listening, speaking, reading, writing, phonics, spelling, and critical thinking skills. Berries' components Learner's Instructor's * Story Magic * Manual and Answer Key * Grammar * Audio CD * Phonics * Assessment CD * Practice * Theme-based Posters * Each of the learner's four books covers a range of components targeting the specific objectives of the respective language areas. * Special care has been given to the choice of themes to guarantee motivation and encourage social interaction. * Study skills and cross-curricular links are also integrated in the program, helping learners experience global education early on in their academic lives. Berries makes learning fun!

Study biotic and abiotic Ecosystems presented in a way that makes it more accessible to students and easier to understand. Discover the difference between Producers, Consumers and Decomposers. Look at evolving populations, change in Ecosystems, Food Chains and Webs. Understand what and why we classify what is Photosynthesis and how the water cycle interacts with man to microorganisms. An ecosystem is a group of things that work and live together in an environment. Our resource provides ready-to-use information and activities for remedial students using simplified language and vocabulary. Ready to use reading passages, student activities and color mini posters, our resource is effective for test prep, whole-class, small group and independent work. All of our content is aligned to your State Standards and are written to Bloom's Taxonomy and STEM initiatives.

Turn off the technology and get back to basics! Tech Timeout for grade 3 features engaging arts and crafts activities, puzzles, games, and physical exercises that children can complete independently or with friends. --It's important to remind children that learning doesn't have to take place in front of screens. Children need time away from technology to develop critical thinking and communication skills. The Tech Timeout series promotes fun, active learning that benefits children's academic growth and physical health. Each book is bursting with activities that improve concentration skills, stimulate creativity, and encourage outdoor adventures.

Despite their name, Wisconsin Fast Plants (members of the cabbage and mustard family) are used by teachers all over the United States -- because they are ideally suited to short semesters, youthful impatience, and small spaces. This spiral-bound lab book demonstrates all aspects of plant growth and development, while teaching scientific investigation. Activities focus on points in the plant's life cycle, variation and inheritance concepts, and environmental factors. A
