Protecting the environment should be a priority of every theatrical production, but it can be challenging to mount an environmentally-friendly show with limited time, resources, and information. A Practical Guide to Greener Theatre: Introduce Sustainability Into Your Productions not only gives you the information you need to make greener decisions, but provides you with practical, workable solutions. You will learn how to assess and improve every production area – from costuming and painting, lighting and technical direction, to administrative offices and the rehearsal process. Checklists, examples of successful strategies, and step-by-step instructions will show you how to identify areas where manageable, sustainable changes can make your productions greener, and advice from working professionals, with experience greening their own productions, will leave you confident that your processes are environmentally sound. Even non-technical people who find themselves responsible for supervising productions will find green solutions that can be instituted with a staff of volunteers or students. Remember: every step toward sustainability is a step forward. Discover small fixes that will make your theatre productions greener. Examine ways to introduce greener practices in the design, execution, and strike process. Explore how introducing
