fighting and virus-and spam-protection measures they need to protect themselves.

Finding Information. Google may be the leading search site, but it's certainly not the only game in town. This book introduces a diverse and useful collection of sites that help uncover everything from health care information, to shopping, travel and finance, to dependable reviews and ratings. Movies, music, and photos. The Web's teeming with entertainment--and not just the sort of postage-stamp sized videos that only a geek could love. Learn where to download movies, watch TV online, listen to music, play games, and post and share photos with friends.

Keeping in touch. Email's only the beginning. This book introduces readers to the many tools that make the modern Internet such a great way to stay connected. From Web-based discussion groups to instant messaging programs, and from blogs and podcasts to Internet-based phone calls, this book will help you join the conversation. Ideal for anyone just venturing into cyberspace, this book is also perfect for more experienced users who could use an update to today's most exciting internet applications.
