Laura Ingraham has signed with her new syndicator - you've never heard of them. The only show they syndicate is Loveline with Dr Drew, which is carried only on a few stations. She is clearly not hoping to return to a major presence on terrestrial radio - this might be a back door way onto SiriusXM or Internet streaming.

Strings Attachedis the story of a brilliant, but ferocious music teacher who came to be known as Mr K. Hundreds of grassroots groups have sprung up around the world to teach programming, web design, robotics, and other skills outside traditional classrooms. These groups exist so that people don't have to learn these things on their own, but ironically, their founders and instructors are often teaching themselves how to teach. There's a better way. This book presents evidence-based practices that will help you create and deliver lessons that work and build a teaching community around them. Topics include the differences between different kinds of learners, diagnosing and correcting misunderstandings, teaching as a performance art, what motivates and demotivates adult learners, how to be a good ally, fostering a healthy community, getting the word out, and building alliances with like-minded groups. The book includes over a hundred exercises that can be done individually or in groups, over 350 references, and a glossary to help you navigate educational jargon.

The women of the Bible lived timeless stories—by examining them, we can understand what it means to be a woman of faith. People unfamiliar with Scripture often assume that women play a small, secondary role in the Bible. But in fact, they were central figures in numerous Biblical tales. It was Queen Esther's bravery at a vital point in history which saved her entire people. The Bible contains warriors like Jael, judges like Deborah, and prophets like Miriam. The first person to witness Jesus' resurrection was Mary Magdalene, who promptly became the first Christian evangelist, eager to share the news which would change the world forever. In The Women of the Bible Speak, Fox News Channel's Shannon Bream opens up the lives of sixteen of these Biblical women, arranging them into pairs and contrasting their journeys. In pairing their stories, Shannon helps us reflect not only on the meaning of each individual's life, but on how they relate to each other and to us. From the shepherdesses of ancient Israel who helped raise the future leaders of the people of God, to the courageous early Christians, the narrative of the Bible offers us many vivid and fascinating female characters. In their lives we can see common struggles to resist bitterness, despair, and pride, and to instead find their true selves in faith, hope, and love. In studying these heroes of the faith, we can find wisdom and warnings for how to better navigate our own faith journeys. The Women of the Bible Speak outlines the lessons we can take from the valor of Esther, the hope of Hannah, the audacity of Rahab, and the faith of Mary. In broadening each woman's individual story, Shannon offers us a deeper understanding of each, and wisdom and insights that can transform our own lives today.

A revealing and gripping investigation into how social media platforms police what we post online—and the large societal impact of these decisions Most users want their Twitter feed, Facebook page, and YouTube comments to be free of harassment and porn. Whether faced with “fake news” or livestreamed violence, “content moderators”—who censor or promote user’ posted content—have never been more important. This is especially true when the tools that social media platforms use to curb trolling, ban hate speech, and censor pornography can also silence the speech you need to hear. In this revealing and nuanced exploration, award-winning sociologist and cultural observer Tarleton Gillespie provides an overview of current social media practices and explains the underlying rationales for how, when, and why these policies are enforced. In doing so, Gillespie highlights that content moderation receives too little public scrutiny even as it is shapes social norms and creates consequences for public discourse, cultural production, and the fabric of society. Based on interviews with content moderators, creators, and consumers, this accessible, timely book is a must-read for anyone who’s ever clicked “like” or “retweet.”

A New York Times bestseller. From FOX & Friends Weekend cohost Pete Hegseth comes a collection of inspiring stories from fifteen of America's greatest heroes—highly decorated Navy SEALs, Army Rangers, marines, Purple Heart recipients, combat pilots, a Medal of Honor recipient, and more—based on FOX Nation's hit show of the same name. After three Army deployments—earning two Bronze Stars and a Combat Infantryman's Badge—Pete Hegseth knows what it takes to be a modern warrior. In Modern Warriors he presents candid, unfiltered conversations with fellow modern warriors and digs for real answers to key questions like: What inspired them to serve? What is their legacy? What does sacrifice really mean to them? How do they handle loss? And what can civilians learn from this latest generation of veterans? From the skies over Afghanistan to the seas of the Mediterranean to the treacherous streets of Iraq, these brave men and women take you inside the firefight, sharing the harrowing realities of war. Hegseth uses their experiences to facilitate conversations about the raw truths of combat, including the difficulties of transitioning back home, while also celebrating these soldiers' contributions to preserving our nation's most precious gift—freedom. In addition to the oral history, Modern Warriors presents dozens of personal, rarely shared photos from the battlefield and the home front. Together these stories and images provide an unvarnished representation of battlefield leadership, military morale, and the strain of war. This book is the perfect keepsake and gift for anyone who wants to know what it means, and what it truly takes, to be a patriot.

Stop the Left from Policing Your Mind Our freedom to speak our minds is under attack. Like the Thought Police of George Orwell's 1984, powerful special interest groups on the Left are mounting a withering assault on our rights in the name of "social equality." Liberty has been turned on its ear as the rights of the few restrict the freedom of everyone. In The New Thought Police, author Tammy Bruce, a self-described lesbian feminist activist, cuts through the deluge of politically correct speech and thought codes to expose the dangerous rise of Left-wing McCarthyism. Provocative and persuasive, this book is a clarion call to anyone interested in preserving liberty.

“Vitaly important, devastatingly thorough, and shockingly revealing... After reading Primetime Propaganda, you'll never watch TV the same way again.” —Mark Levin Movie critic Michael Medved calls Ben Shapiro, “One of our most refreshing and insightful voices on the popular culture, as well as a conscience for his much-maligned generation.” With Primetime Propaganda, the syndicated columnist and bestselling author of Brainwashed, Porn Generation, and Project President tells the shocking true story of how the most powerful medium of mass communication in human history became a vehicle for spreading the radical agenda of the left side of the political spectrum. Similar to what Bernard Goldberg’s Bias and A Slobbering Love Affair did for the liberal news machine, Shapiro’s Primetime Propaganda is an essential exposé of corrupting media bias, pulling back the curtain on widespread and unrepentant abuses of the Hollywood entertainment industry.

"The Fight shines a much needed light on the troubling games DC politicians and insiders play with the American people." -Sean Hannity "The Fight is a lesson plan for fighting back against the Washington DC political machine." - Mark Levin In The Fight, Dan Bongino picks up the story where his New York Times bestselling book Life Inside the Bubble ends to tackle current political and security issues and offer new solutions. From Hilary's emails to the security failings at the White House (including the drone crash and the fence jumper); from Charlie Hebdo to Bowe Bergdahl--the author examines how our current administration has allowed our security efforts to lapse both at home and abroad. He also offers solutions to the growing terrorist threat and how we can protect American citizens while also deconstructing what's wrong with our political process and what his experience running for office has taught him. As a former member of the elite Presidential Protection Division who served three Presidents, Bongino is uniquely qualified to provide a view from behind the curtain to warn readers about the political system that is failing them, and the security future that won't protect them. The majority of Americans only come into contact with security when they fly or enter their workplace. They are rarely able to become acquainted with the politicians they know from robo-calls and TV ads. Bongino has experienced the inner-workings of the national security apparatus and the failed political theater that we all feel but rarely understand. Using a mix of current events, an insider's analysis, and tales from his time protecting the president, he shows where clear and foreseeable leadership failures from our current administration led to grave consequences. From a broken political process to a president who consistently misreads the American people, he shows us where America has gone wrong and how we can fight back.
