Big O notation is used in Computer Science to describe the performance or complexity of an algorithm. Big O specifically describes the worst-case scenario, and can be used to describe the execution time required or the space used (e.g. in memory or on disk) by an algorithm. Anyone who's read Programming Pearls or any other Computer Science books and doesn't have a grounding in Mathematics will have hit a wall when they reached chapters that mention $O(N \log N)$ or other seemingly crazy syntax.

Blasting clichéd career advice, the contrarian pundit and creator of Dilbert recounts the humorous ups and downs of his career, revealing the outsized role of luck in our lives and how best to play the system. Scott Adams has likely failed at more things than anyone you've ever met or anyone you've even heard of. So how did he go from hapless office worker and serial failure to the creator of Dilbert, one of the world's most famous syndicated comic strips, in just a few years? In *How to Fail at Almost Everything and Still Win Big*, Adams shares the game plan he's followed since he was a teen: invite failure in, embrace it, then pick its pocket. No career guide can offer advice that works for everyone. As Adams explains, your best bet is to study the ways of others who made it big and try to glean some tricks and strategies that make sense for you. Adams pulls back the covers on his own unusual life and shares how he turned one failure after another—including his corporate career, his inventions, his investments, and his two restaurants—into something good and lasting. There's a lot to learn from his personal story, and a lot of entertainment along the way. Adams discovered some unlikely truths that helped to propel him forward. For instance: □ Goals are for losers. Systems are for winners. □ "Passion" is bull. What you need is personal energy. □ A combination of mediocre skills can make you surprisingly valuable. □ You can manage your odds in a way that makes you look lucky to others. Adams hopes you can laugh at his failures while discovering some unique and helpful ideas on your own path to personal victory. As he writes: "This is a story of one person's unlikely success within the context of scores of embarrassing failures. Was my eventual success primarily a result of talent, luck, hard work, or an accidental just-right balance of each? All I know for sure is that I pursued a conscious strategy of managing my opportunities in a way that would make it easier for luck to find me."

Upton Sinclair, one of America's foremost and most prolific authors, addresses the cultivation of the mind and the body in this 1922 volume. Sinclair's goal was to attempt to tell the reader how to live, how to find health, happiness and success, and how to develop fully both the mind and the body. Part One: *The Book of the Mind* covers such subjects as faith, reason, morality, and the subconscious. Part Two: *The Book of the Body* develops such subjects as errors in diet, the fasting cure, food and poisons, work and play, and diseases and their cures .

In 1874, just two years before General George A. Custer's death at Little Big Horn, a collection of his magazine articles was published as ""My Life on the Plains."" Custer, General in the U.S. Army's Seventh Cavalry, wrote personal accounts of his encounters with Native Americans during the western Indian warfare of 1867-1869. The collection was a document of its time and an important primary source for anyone interested in U.S. military affairs and U.S./Native American relations. Custer's references to Indians as ""bloodthirsty savages"" were tempered by his empathetic understanding of their reason for fighting: ""If I were an Indian, I often think I would greatly prefer to cast my lot among those of my people who adhered

to the free open plains, rather than submit to the confined limits of a reservation ""

A time to reflect on my seventy years of life. Maybe some folks will be interested in my life and the folks I have met, or maybe not. This is a non-traditional memoir, filled with alphabetical vignettes not chronological ones. I have made a foray into fiction with an asterisk: in those cases where I have marked the vignette as fictional, it might be 100 percent not true, but in many cases I knew of, was part of, or heard from others about the story itself. At any rate, the entire book is my recollection of things past, and as in all recollections, the more distant the memory the clearer the details.

Helen Keller's autobiographies THE STORY OF MY LIFE and THE WORLD I LIVE IN chronicle in her own words the remarkable true story we have come to know from the stage and film productions of THE MIRACLE WORKER. Here we discover Helen's thoughts and feelings hidden in the blind, deaf, and mute character in those productions—thoughts and feelings she came to express with such eloquence orally and in writings in later years. And here we are inspired not only by Helen Keller and her journey but also by the intriguing possibilities that certainly must be awaiting discovery in others. EARLY REVIEWS "The autobiography of Helen Keller is unquestionably one of the most remarkable records ever published."—British Weekly "This book is a human document of intense interest, and without a parallel, we suppose, in the history of literature."—Yorkshire Post "Miss Keller's autobiography, well written and full of practical interest in all sides of life, literary, artistic and social, records an extraordinary victory over physical disabilities."—Times "This book is a record of the miraculous. No one can read it without being profoundly touched by the patience and devotion which brought the blind, deaf-mute child into touch with human life, without being filled with wonder at the quick intelligence which made such communication with the outside world possible."—Queen

In Stop Sabotaging Your Life: 3 Steps To Your Full Potential, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional independence. How many times have you caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough.... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams. LoGreco doesn't claim his book will cure everything that ails you. As he says, "There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether." What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco: "As a divorced mother of three, I've encountered many obstacles, mostly personal ones within myself. I wondered why I kept repeating the same patterns with the men I was dating and why it always ended badly, usually with me being hurt, and questioned what 'I' was doing wrong. Bruno taught me how to love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that."—Cristina "The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a new course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person with an infectious enthusiasm to make you seize your inborn potential." —Adrian "If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him.... Bruno got me to step outside of my comfort zone and do things I normally

wouldn't have done otherwise, which is undoubtedly the key to growth." —Blaine

My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards
