This volume contains all of Sanghrakshita's poems and six short stories. It is prefaced by a foreword and two essays introducing the poems in different ways. It also includes edited versions of two talks Sangharakshita gave about specific poems, and a sequence of conversations about his poetry that were recorded towards the end of his life.

Do you wonder where the world is going? Do you feel like the only stability left is change? Why are we here, and where do we go from here? In this book, we explore key aspects such as politics, economy, education, art, nature, the role of women/motherhood, etc. and bring them under the light of the Initiatic understanding of renowned Initiates, Sages, and great Masters, particularly Omraam Mikhaël Aïvanhov. Humanity is coming to the end of an era of materialization and is at the threshold of a new era, one of spiritualization. We are at a crossroads. Our awakening and cooperation as a global family, a universal family, are the surest way to face the twenty-first century. This book is an opportunity to see with new eyes, with a new consciousness. The future can be harmonious and glorious. May we open up, go within, and explore our inner riches, the ones deposited by the Creator in the depth of our soul! The exercises of visualization and affirmation at the end of each chapter are a way to uplift your consciousness to a new realm, that of universal love and cosmic light. Enjoy! "I am frequently asked in lectures and seminars, "Who today is a believable, genuine, spiritual teacher?" Now I can answer without hesitation: Encounter Omraam Mikhaël Aïvanhov and see what happens." -Dr. Larry Dossey, Recovering the Soul, Beyond Illness, Meaning and Medicine

A well-rounded discourse that demonstrates how hard science and metaphysics merge to give us an opportunity to live healthier lives. Cooper opens her discussion to a broad range of thought, including a discussion of the pioneering work of Rudolf Steiner. She delves into the Theosophical system of the Seven Rays, outlining each of the rays with its respective color association and meaning for whole health. Index.
