Back by popular demand: a brand-new volume of science queries, quirks, and quandaries in the mega-bestselling Science of Why series, sure to enlighten and entertain readers of all ages. Have you ever wondered why we close our eyes when we sneeze? Or how far underground things can live? Or if there's a way to choose the fastest lineup at the grocery store? Yes? Then fasten your seat belts! Bestselling author Jay Ingram is here to take you on a rollercoaster ride through science's most perplexing puzzles. From the age-old mysteries that have fascinated us to the pressing unknowns about our future and all the everyday wonderings in-between, Jay answers questions that confound and dumbfound, such as: Why do zebras have stripes? How many universes might there be? Can we live for 200 years? ...along with everything you ever wanted to know about alien civilizations, photographic memories, nanobots, poop, and (conveniently) toilet paper. Bursting with laugh-out-loud illustrations, jaw-dropping marvels, and head-scratching science fictions, The Science of Why, Volume 4 will give readers of all stripes a real thrill.

Most of us believe that somewhere, somehow there must be a unique destiny for our lives. Something more than just eking out an existence. A plan to live out this life we've been given ... to the full. But unless we really know who we are – how we've been wired on the inside; our personality type if you will – then how can we possibly discover what we're meant to be doing with ourselves; our unique 'gig' in life? Berni Dymet + Keith Henry have written a book that's not only entertaining and easy-to-read, but incredibly insightful and intensely practical. This book is about you, because personality GPS is all about helping you locate your unique Personality Type. But what makes it so wonderfully different, is that it's been written with a very special purpose in mind: it's been written so that you can live out your life ... to the full. You'll discover: • how wonderfully different God has made each one of us, • your specific personality type and what that means for your life, • how to uncover the personality types of your family, friends and colleagues, • how to develop richer and more meaningful relationships by knowing yourself and others, and • most importantly, how you can impact this world and discover fulfillment in serving people by being who you were always meant to be.

In this case study book we present real teaching cases in branding and marketing which are suitable for Bachelor and Master Programs in International and Strategic Management. Case study learning and teaching offers students and lecturers a great opportunity for class discussions on prevailing topics. Case studies can be used for individual and group work. The structure of the cases allows lecturers to use it in different contexts regarding exercises and educational objectives. Case teaching provides an interactive and challenging environment, involving diverse perspectives and complex interdependencies that trigger thoughts and discussions about practical business challenges.

Asian Indians figure prominently among the educated, middle class subset of contemporary immigrants. They move quickly into residences, jobs, and lifestyles that provide little opportunity with fellow migrants, yet they continue to see themselves as a distinctive community within contemporary American society. In Life Lines Bacon chronicles the creation of a community--Indian-born parents and their children living in the Chicago metropolitan area--bound by neither geographic proximity, nor institutional ties, and explores the processes through which ethnic identity is transmitted to the next generation. Bacon's study centers upon the engrossing portraits of five immigrant families, each one a complex tapestry woven from the distinctive voices of its family members. Both extensive field work among community organizations and analyses of ethnic media help Bacon expose the complicated interplay between the private social interactions of family life and the stylized rhetoric of "Indianness" that permeates public life. This inventive analysis suggests that the process of assimilation which these families undergo parallels the assimilation process experienced by anyone who conceives of him or herself as a member of a distinctive community in search of a place in American society.

Formerly entitled : Carmichael's manual of child psychology.

From the editor team of the ground-breaking Consumer-Brand Relationships: Theory and Practice comes this new volume. Strong Brands, Strong Relationships is a collection of innovative research and management insights that build upon the foundations of the first book, but takes the study of brand relationships outside of traditional realms by applying new theoretical frameworks and considering new contexts. The result is an expanded and better-informed account of people's relationships with brands and a demonstration of the important and timely implications of this evolving sub-discipline. A range of different brand relationship environments are explored in the collection, including: online digital spaces, consumer collectives, global brands, luxury brands, branding in terrorist organizations, and the brand relationships of men and transient consumers. This book attends to relationship endings as well as their beginnings, providing a full life-cycle perspective. While the first volume focused on positive relationship benefits, this collection explores dysfunctional dynamics, adversarial and politically-charged relationships, and those that are harmful to well-being. Evocative constructs are leveraged, including secrets, betrayals, anthropomorphism, lying, infidelity, retaliation, and bereavement. The curated collection provides both a deeper theoretical understanding of brand relationship phenomena and ideas for practical application from experiments and execution in commercial practice. Strong Brands, Strong Relationships will be the perfect read for marketing faculty and graduate students interested in branding dynamics, as well as managers responsible for stewarding brands.

I have tried in this revision to incorporate the main lessons of the last sixteen years. These lessons have been considerable. I consider it a real and extensive revision-even though I had to do only a moderate amount of rewriting-because the main thrust of the book has been modified in important ways which I shall detail below.
