Chinese companies have been increasingly active in outbound investment in recent years, with Germany the third largest destination in Europe. Adopting an analytical approach and utilizing case studies and expert interviews, this book examines Chinese mergers and acquisitions (M&As) in Germany, with a focus on the companies' business growth, particularly the integration process and subsequent growth after acquisition. The authors contend that Chinese investors take a different approach than their western counterparts, by fostering a long-term orientation toward their investments and placing greater emphasis on co-evolution with the acquired firms rather than transfer of knowledge back to China. This book offers readers a behind-the-scenes story of three separate M&A cases, shedding light on the growth models that ensue from mergers and acquisitions, and the endeavors of Chinese and German managers to grow the businesses together.

Under the label of "the socialist market economy with Chinese characteristics," the Chinese Government has made a firm commitment to economic reform, though still retaining tight political control. Thus, under conditions of liberal economic systems and autocratic rule, a new capitalist system is emerging in China; its top companies are managed by private entrepreneurs, government bodies or a combination of both. This book, presented in an easily accessible format, fills an important gap in the growing literature on China in the global economy and provides a research reference tool on China's top companies. It contains a comprehensive directory listing of the Top 100 corporations in China, thus enhancing the research potential on China for students, researchers and businesses alike. As a general reference guide to the Chinese economy, A Guide to the Top 100 Companies in China provides up-to-date and comprehensive coverage of the top Chinese enterprises. Corporations from Hong Kong and Taiwan that conduct significant business in China are also included.

The 2013 International Conference on Cyber Science and Engineering (CyberSE 2013) will be held on in Guangzhou, China during December 14– 15, 2013. CyberSE is an annual conference to call together researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Cyber Science and Engineering. CyberSE 2013 is sponsored by International Association for Cyber Science and Engineering, Hong Kong. CyberSE 2013 has received more than 200 submissions from 15 countries and regions. The papers come from both academia and industry reflecting the international flavor of this event in the topics of Cyber Science and Engineering. About 20 PC members and 40 International reviewers worked hard in reviewing the submissions. Based on the review reports, about 63 papers were accepted to be presented in CyberSE 2013 by the chairs. The papers were grouped into five sessions viz., 1. Computer and Information Technologies, 2. Communication Technologies, 3. Artificial Intelligence, 4. Management and Services Science, 5. Circuits and Systems. All the accepted papers have been presented on the conference, mainly by oral presentations. During the conference, many novel research works caught the attentions of the participants. The participants came to an agreement that they will participate in the CyberSE 2014 next year. All the presented papers will be published by DEStech Publications, USA. DEStech will have the proceeding indexed in ISI (Institute of Scientific Information), CPCI-S (ISTP), Google Book Search, EI and other worldwide online citation of qualified papers. We express our thanks to all the members of the General Committee Chairs, Program Committee Chairs, Technical Program Committee and Volunteers who worked so hard to prepare the conference and chair the five sessions in CyberSE 2013 . We hope that CyberSE 2013 will be successful and enjoyable to all participants. We look forward to seeing all of you next year at the CyberSE 2014. Deyao Tan, International Association for Cyber Science and Engineering, China

This document brings together a set of latest data points and publicly available information relevant for Manufacturing. We are very excited to share this content and believe that readers will benefit immensely from this periodic publication immensely.

The book is an outstanding compilation. It is easy to use, the information is clear and well-presented, and the volume is smart and robustly crafted. . . The book is an important reference source for practitioners in international business, entrepreneurs and Asian studies. Bob Duckett, Reference Reviews The current compilation fills the need for a Who s Who in the Chinese business world. . . This is a useful reference for scholars and students in China studies and for business practitioners. Recommended. K.T. Wei, Choice As direct foreign investment, both inward and outward, continues to gather momentum, the need to understand the leaders of Chinese corporations is increasingly important. The Biographical Dictionary of New Chinese Entrepreneurs and Business Leaders is therefore a welcome addition to corporate and academic libraries. The encyclopedia provides up-to-date coverage of the major players in China s new economy. Dorothy Mays, Chinese Librarianship A long awaited reference volume! Professionally compiled and user-friendly. A must for the serious researcher. Leo-Paul Dana, Journal of Enterprising Communities Biographical information about business leaders and entrepreneurs in China is scattered in a variety of Chinese sources such as books, newspapers, journal articles, web pages, etc. and are difficult to locate, especially from outside of China. This biographical dictionary, written in English, which includes some 200 of the most important movers and shakers of the new Chinese economy since 1978, is a very useful reference tool for libraries of all types as well as for anyone who is interested in learning and understanding the growing influence of China as a new economic power in the world. Hwa-Wei Lee, formerly of the Library of Congress, and Ohio University Libraries This impressive effort by two leading scholars of Chinese business and society will quickly become a reference for all students and practitioners. Indeed, it is a ready vade mecum, filling the crying gap many experts have identified in recent years. This work will set the standard for its successors: independent in its analytical assessments, broad-spectrum in its choice of entry, far-sighted in its selections. John R. McIntyre, Georgia Institute of Technology, US The book is a must-have for any student, library, executive or entrepreneur contemplating the business environment in China. In an important society where clout is paramount and relationship is key, the book s listing of Who s Who in China is essential to success. An essential read for anyone thinking of doing business in China! J. Mark Munoz, Munoz and Associates International and author of A Salesman in Asia For anyone interested in interacting with China, whether doing business or not, it would be advantageous to know thy foe and thyself , as Sunzi (Sun Tzu) put it. And this work will definitely be conducive to your gaining an insight on contemporary China and its economic boom. It can be used as a reference tool or read as a textbook. Highly recommended for college and public libraries. Shixing Wen, Editor-in-Chief, Chinese Librarianship, Former President, Chinese American Librarians Association and Councilor, American Library Association This exhaustive resource provides comprehensive coverage of the major players in the Chinese economy since the reform era, which began in 1978. It includes 200 entries briefly summarizing each individual s life and career, with a central focus on his or her accomplishments and the key roles played in the economic development of China. The emphasis of the book is on the movers and shakers of China s new economy, highlighting notable figures from both the initial economic liberalization period and the renewed growth from the early 1990s to the present time. This invaluable dictionary is the result of collaborative efforts across the globe. Over forty scholars from the United States, mainland China and Taiwan, United Kingdom, Germany, F

Mainland China businesses are going global, transforming the country from a manufacturing export platform into an overseas investment powerhouse. China Goes Global is the most thorough and up-to-date empirical analysis of the accelerating effort of Chinese companies to go global by investing overseas. It details the overall trends of this activity with respect to its sectors, channels, overseas targets, and particular firms, along the role of Chinese Government policy in facilitating business enterprise globalization. The book offers readers an enterprise level of view outward expansion by Chinese firms that is focused not only on the big-names, but also less well-known, but equally important trailblazing enterprises. In doing so it offers practical suggestions on how firms can tackle the challenges encountered when expanding outward.

This Standard specifies the terms and definitions, disassembly, classification and cleaning requirements, testing and repair requirements, assembly requirements, inspection requirements, marks and packaging requirements of ignition, compression ignition engine cylinder block assembly remanufacturing. This Standard is applicable to the remanufacturing of automobile engine cylinder block assembly.

This Part of GB/T 38750 specifies the energy efficiency evaluating specifications and measurement methods for non-road diesel engines and lightduty vehicle diesel engines. This Part applies to diesel engines for non-road diesel engines and light-duty vehicles (including light passenger vehicles and light commercial vehicles) below 560 kW.
